

Tiger Silverback IP66 LED Batten

INSTALLATION MANUAL

1. General cautions

Before installing the fixtures, please read instruction manual carefully.

The lighting fixtures should be installed, connected and tested by a certified installer based on the local regulations.

Please check the local voltage in accordance with the product requirements before using the product.

Lamps should always be installed or replaced with care. Turn off power and allow the fitting to cool.

If a lamp is to be cleaned, turn the power off and let it cool down completely. Clean the fixture with a soft cloth and a standard PH neutral detergent. Stainless steel finishing should be maintained regularly.

Do not cover the fixtures with flammable materials.

Misuse of, or changes to the fixture shall nullify the warranty.

The fitting should be serviced or replaced by the manufacturer or his service agent or similar qualified person in order to avoid a hazard.
